

**EP3 coated replacement spring (left side)
for model 940 doors shipped from 1981
to June 1995. (door has no bearing where
axle meets door bracket)**

Due to product improvements, springs of different size and finish are specified for replacement in certain doors. To verify that this is the correct replacement for your application, consider the shipment date if known, and compare the original specification on the table below to the spring that you will be replacing.

Left/Right side is as observed when standing inside the storage unit looking out at the door. In standard Trac-Rite applications, the latch side is the left side.

For 940 doors from 1981 to June 1995:

Width range: 2'10" to 9'0"

Height range: Up to 10'4"

	Original Spring	Replacement Spring
Wire Diameter	.225"	.234"
Inside Diameter	3.25"	3.781"
Nominal Length	9.94"	10.29"
No. of Coils	43	43
Inch Number Per Turn (IPPT)	51	51

Corresponding right side spring is 522322
